What we offer at a glance...

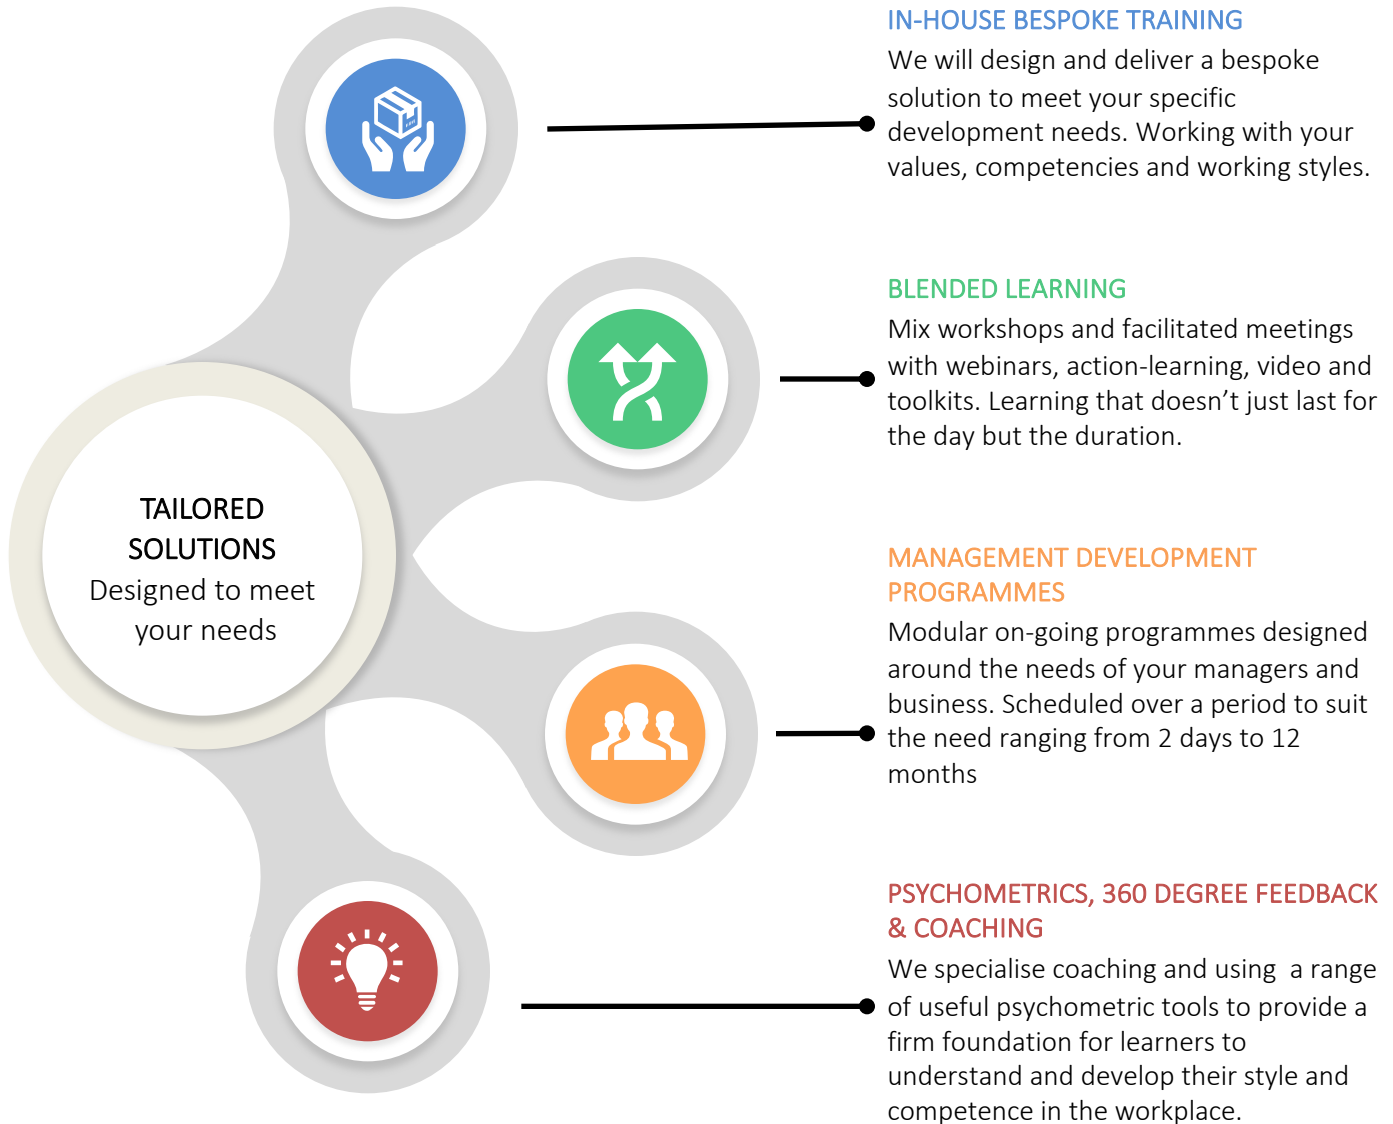

Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did do.

*So throw off the bowlines. Sail away from the safe harbour.
Catch the trade winds in your sails. Explore. Dream. Discover."*

~ Mark Twain

What we offer at a glance...

Why do people choose Full Circle?

Thought provoking, inspiring and practical

Our programs are interactive, challenging and relate directly back to the workplace where the real progress is made.

We work with your 'real-world' situations and issues that your people face everyday.

For our bespoke solutions, we will work closely with you before the event, gathering lots of information and feedback from your people for providing specific scenarios they can relate to. The content, materials, activities and discussions are then both practical and relevant.

We appreciate that it's the application of the learning that's vital, so as well as covering the techniques we always cover what your people should do to actually put the learning into practice when they get back to work.

It's important that we get to know your business, how it operates and its culture.

We will want to understand where you're heading and the current business drivers to input into the training. The keyword with all of this is "relevancy". Everything has to be relevant to your objectives and your organisation.

Accreditations

We are accredited by 6 professional organisations (please see next page for additional details). That means that we regularly have all of our skills, processes and material reviewed to achieve our accredited status. Continuing Professional Development is vital for us as well as the people we work with.

By using a range of excellent tools, Full Circle Training & Development helps individuals to gain a detailed understanding of their working style and how this impacts on their relationships with others and as a professional. This often forms a strong foundation for our modular events.

We only use qualified professionals to carry out psychometric testing and this ensures that the highest quality advice and practices are used within your business. Our assessment specialists hold the British Psychological Society's Level A and Level B qualifications in psychometric testing. This gives you the peace of mind that our management and leadership events are of the highest quality and consistency.

Insights Discovery is a simple accessible four colour model that helps us understand ourselves and others.

Every person has all four colour energies within them; It is the combination of these energies which creates a unique personality.

Insights helps develop a language that allows individuals to communicate effectively, with customers and colleagues and to recognise and value contributions each individual can make. A language that makes personal development, empowerment and team-centred leadership a way of life.

Emotional Intelligence

To maximise individual performance, we can provide structured, in-depth analysis of current behaviour and the underlying drivers. By building employees' awareness of both these aspects, you can empower employees to take ownership of their career development and ensure that they are working in areas where they can add the most value.

Why Emotional Intelligence matters?

The JCA Emotional Intelligence Profile is a developmental tool used to enhance the performance of individuals and leaders. Using the EIP3 to assess and develop the Emotional Intelligence of your people and leaders will help you to:

- Improve employee engagement
- Create open, collaborative and trust-based cultures
- Build an emotionally resilient workforce
- Develop a sustainable high-performance climate
- Transform the interpersonal skills of technical experts
- Focus talent development on the leadership qualities that are critical for future success

Emotional Intelligence in Business

Leadership Climate Indicator

Leadership climate refers to the emotional tone set or climate created by leaders within the work environment. Research shows that positive workplace climates lead to higher performance, engagement and well-being. Measuring leadership climate helps organisations understand the impact of “how does it feel to work for you?”

Emotionally intelligent leaders create more productive environments with healthy, engaged and motivated staff. We are qualified in a suite of leadership climate products includes organisational diagnostic surveys and 360 degree feedback questionnaires, to enable leaders to instantly see how their current behaviour is perceived and the impact this has on those following them.

Client Comments...

I cannot recommend Jo highly enough. She is an incredibly talented and professional development expert. She has helped us facilitate our in-house management development programme and designed and developed our leadership programme for our Executive Team and senior leaders. Jo has been fantastic for Blue Cross, and we have been very lucky to have such a great fit with her style and delivery. Happy to endorse her work, if you want more information or to get in touch.

Rachel Briggs – Global People Director World Animal Protection

HF Holidays have worked with Jo for a number of years now. She has brought out the best in our leaders, raising their awareness, skills and confidence, helping us transform business performance. The cultural change has been welcomed by our team, has led us to do great things for our guests and members, and deliver stronger financial performance. Could we have done without Jo? Maybe but I doubt it.

Jim Forward CEO HF Holidays

Having a fairly new 'Team' we decided to invest some time and money into getting to know each other. Along came Jo and the 'Insights' profiling, insightful indeed. Jo's enthusiasm for all things Red, Blue, Yellow and Green soon rubbed off on us and we haven't looked back since. As a Team we have benefitted from identifying we have different colour preferences that depict how we like to work, and by highlighting our preferences to each other we are now able to get the best out of each other, increasing productivity and uplifting the atmosphere within the office.

Emma Cook- Finance Manager Cotteswold Dairies

Over the last two years Jo has become a key training partner for us, helping design and deliver the training and development strategy for the business. Jo's ability to understand our business model and build strong relationships with key members of the business is what sets her apart from other training providers. The courses provided are always bespoke to suit our business and full of energy to inspire our people. I couldn't recommend Jo highly enough.

Emma Shaw- HR Business Partner at Jaguar Land Rover

Joanne is without doubt one of the most inspirational people I have dealt with in business. She is extremely likeable and does her background work in detail on the business and the individuals she deals with. A very easy recommendation to write.

Tony Yates- Hospital Director at Spire Healthcare

For a number of our Talent programmes, Jo has successfully run presentation skills workshop for our participants. Through delivering succinct, specific feedback to individuals, she has ensured that they are more focused on the elements of making a really impactful presentation.
